

A few more thoughts from Jim:

Why are you excited about serving on the POWR board?

I believe POWR can and should help fill the “white space” of a statewide collaboration of small, more localized watershed organizations dedicated to improving their streams and rivers. These organizations will benefit from the existence of this group which can help disseminate “best practices” and provide additional resources to the “boots on the ground efforts.”

Why is the vision and mission of POWR important to you?

I believe the best conservation work happens when local, passionate people act at the local level. These groups can benefit from the guidance, advice, and resources better available through a larger, statewide-focused organization. POWR has the ability to play that role.

What outdoor activities do you enjoy participating in? What other hobbies do you have?

Fishing, hunting, paddling, SCUBA diving, and golf.
