

A few more thoughts from...Christopher Crockett

Why are you excited about serving on the POWR board?

I am excited to helping further the cause of connecting people with their rivers and watersheds. Keeping people connected to the environment and their local streams is a key to protecting the environment for future generations.

Why is the vision and mission of POWR important to you?

Growing up I was introduced to watershed protection working with my local fishing group and my local sportsmen's association. I saw firsthand how local organizations make a huge difference in restoring and protecting watersheds and rivers. These organizations do so much with so little and every little bit of assistance they can get goes so far. I want to help those organizations be able to fulfill their mission by providing whatever assistance we can.

Do you have any professional ties related to POWR's mission/goals and partners? How else would you like to contribute to the advancing the mission?

My organization (Essential & Aqua) supports and participates in activities with many watershed groups. We participate in events, tree plantings, cleanups, and other educational efforts to help spread the word of watershed protection.

What outdoor activities do you enjoy participating in? What other hobbies do you have?

I enjoy fishing (when I can get the time), hiking, and gardening. I also do some kayaking and canoeing or boating in general when I get a chance to get out on the water. Sometimes I also play guitar very badly.
